

Denman's Values

Knowledge

Know what you don't know, learn it, build on it, and use it wisely.

Learn from the very best quickly.

Never stop learning and teaching others.

Leadership

Be relentless to be your very best, bring passion to everything you do.

Inspire, have fun, celebrate achievement.

Treat team members, clients and vendor partners with respect.

Perspective

Be truthful, candid and do what is right.

It is through team work that team members earn trust and respect.

Success comes, but never at the expense of our physical or mental well-being.

Imagination

Imagination will take you everywhere.

Beautiful pictures are created with everyday crayons, whimsy and well chosen digital bits. Use them all.

Inspiration's partner is perspiration.

Solutions through imagination pay both intellectual and financial dividends.

Results

Time is priceless - solve problems now.

The future is built on measurable results and immeasurable perceptions.

No matter how well you did today there is always tomorrow.

Success is not measured in financial capital, achievements or self actualization; it is all of those things.

Whatever creativity is, it is in part a solution to a problem.
—Robert Bresson

Let us so live that when we come to die even the undertaker will be sorry.
—Mark Twain
